ROLAND ANNOUNCES NEW PROMOTION FOR FANTOM-G

New Customers Are Eligible for Free Starter Kit with Fantom-G Purchase

Los Angeles, CA, August 14th, 2008— Roland is pleased to announce a new limited-time promotion through the Roland U.S. website. Customers who purchase a Fantom-G6, -G7, or -G8 between August 1st and October 31st are eligible for a free starter kit directly from Roland. Consisting of a two-button optical scroll wheel mouse and 1GB USB Flash Memory Key, these accessories will help customers bring the most out of this new breed of workstation keyboard.

The Fantom-G has redefined the boundaries of playability and creativity with its advanced sound engine, revolutionary ARX SuperNATURAL expansion bay, jumbo-sized color LCD, powerful new audio/MIDI recorder, and first-class 88-note Ivory Feel ([Fantom-G8](#)) and synth-action ([Fantom-G7](#) and [Fantom-G6](#)) keys.

Customers will receive a USB mouse, enabling them to take full advantage of the Fantom-G's 8.5" wide LCD display and graphical user interface. The mouse works especially well with the newly-designed power sequencer, which provides 128 tracks (including 24 audio tracks) in a fully intergraded audio/MIDI graphical environment.

Also included in the starter kit is a 1GB USB Flash Memory Key, allowing the customer to transfer files to and from their computer, and to back up projects created on their Fantom-G.

For more details, please visit <http://www.RolandUS.com/promotions>.
