

- **Adds eight linear audio tracks**
- **Enhanced Skip Back Sampling**
- **Multisample waveform editor**
- **Upgraded Editor software for PC/Mac**
- **Auto-Patch Bank mode**

Audio Track Expansion

- **Version 2.0 adds eight stereo audio tracks along side the Fantom's 16 MIDI tracks.**
- **Tracks can be played back from any point in the song.**
- **Tracks are synced perfectly with MIDI tracks thanks to realtime time-stretching.**
- **New mixer screen, audio tracking editing and track views have been added.**

Enhanced Skip Back Sampling

- **Enhanced Skip Back sampling creates instant loops that are ready to sequence.**
- **A Skip Back sample can be output instantly to any of the eight new audio tracks.**
- **Enhanced Skip Back Preview Window for easier sample editing and chopping.**

Multisample waveform editor

- **Multisample waveform editing for series sample-based patch creation.**
- **New easy preview and patch creation methods.**

Upgraded Editor Software for PC/Mac

- **Version 2.0 includes an upgraded Editor, plus S-700 CD-ROM conversion software.**
- **Sample Chop window for chops drum and other rhythmic samples in intelligent parts, then immediately previews the slices by clicking the onscreen pads.**
- **Multisample Edit screen manipulates multisamples fast and easy.**

Auto-Patch Bank Creates Patches from Samples Instantly

- **Every time you sample in Version 2.0 a patch is instantly made for that sample.**
- **Sample patches are assigned to the user presets, ready for use in composing.**

More World Class Sounds

- **The Audio Track Expansion also adds a new bank of sounds (the "I" Bank) bringing the total number of patches to an amazing 1,408 in total!**

Playing the Self-Running Demo:

Every time you power on the Fantom-X, it loads an animated self-running demo showing all the cool features that make up the Audio Track Expansion. Just press **PLAY** to hear and watch the demo.

If you need to re-load the self-running demo here's how:

1. Press the **SAVE/LOAD** button above the pads.
2. Press **F5 "Load S+S"**. Select the song, "Start Chillin". Make sure you select file name, **SP_DEMO.SVQ!**
3. Press **F8** twice to reload the song.
4. Press **PLAY** to start the demo.

Show the new Audio Tracks and Audio Mixer:

Load another version of "Chillin" that you can use to demo the Audio Tracks:

1. Press the **SAVE/LOAD** button above the Pads. Press **F5 "Load S+S"**.
2. Use the **DIAL** to select the file "DEMO0002.SQV". Press **F8** twice.
3. Press **SONG EDIT**, then **F3 Audio Track**. Press **PLAY**.
4. Press **F4 Marker List**. Press the **PADS** to jump to different sections of the song. Press **F8 Close**. Press **STOP**.
5. Use the **CURSOR** to select Track 1, "Girl Vox 1".
6. Hold **SHIFT** and press the **LEFT** and **RIGHT** cursors to move the audio phrase to a bar at a time.
7. Hold **SHIFT** and use the **DIAL** to slide the phrase in 16 note increments.
8. Hold **SHIFT** and press **F6** to cycle through different track views.
9. Press **F1 Audio Mixer**. Press **RESET**, then **PLAY** to see the mixer's **VU Meters**.
10. Press **STOP** when finished.

Checking out the Fantom-X Patches:

Let's not forget that the Fantom-X is the leader in world-class sounds:

1. Press the **PATCH/RHYTHM** button.
2. To assign a patch to the keyboard, press **F7 KBD**.
3. Press **F1 Patch List**.
4. Use **F1/F2** to advance through the categories. Use the **DIAL** to scroll through patches within a category.
5. Press **F7 Preview** to audition patches. Press **F8** to choose the patch.
6. Press **F8 PAD** to assign a different drum kit to the **PADS**.
7. Press **F1 Patch List**. Use the **DIAL** to scroll through the different kits.
8. Press **F7 Preview** to audition the kits. Press **F8** to assign the kit to the pads.
9. Press **F7** to return the keyboard as the default in Patch Play.
