ROLAND PDX-8 V-PAD

—Quieter Response in Bold New Design—

Frankfurt, Germany, March 28, 2006 — Roland is proud to announce the PDX-8 V-Pad. This new 10 in. dual-zone pad features Roland's latest dual-triggering technology, resulting in more consistent and accurate sensing between the head and rim. When used as tom-toms for TD-20 and TD-12 sound modules, the pads let you play rimshots, and the sound will change depending on the strength of your stroke. The new design offers a more comfortable playing feel and quieter responses.

Roland is a world leader in the design, manufacture, and distribution of electronic musical instruments, professional audio equipment, multimedia products, and music accessories. For more information, contact Roland Corporation U.S., 5100 S. Eastern Ave., P.O. Box 910921, Los Angeles, CA 90091-0921, (323) 890-3700 (x3718 - for media use only), www.RolandUS.com.
