### **ROLAND ANNOUNCES CUBE-30X, CUBE-20X and Cube-15X AMPLIFIERS**

— Three Hot New X-Series CUBEs for Guitarists!—

**Austin, TX, July 14, 2006**—Roland's famous CUBE amp lineup expands with three hot new models; the Cube-15X, 20X and 30X guitar modeling amplifiers. The new Cubes offer great new features such as Power Squeezer for maximum gain at low volumes, a fully equipped guitar tuner in the 20X and 30X, a mini jack aux in for playing along to MP3 and CD players, and award winning CUBE sound.

Small in size but big on sound, the new Cube-15X guitar practice amp provides powerful sound at an affordable price. With two-channel operation, 3-band EQ and a recording/headphone output, this amp is a simple solution for the student on-the-go, or anyone looking for great Roland sound in a compact package.

For the guitarists wanting even more flexibility and choice, the new Cube-20X and Cube-30X COSM based amps offer a variety of DSP effects to make any performance rock including Acoustic, Metal Stack, and more.

The Cube-30X also includes Roland's Dyna Amp feature—providing guitarists with expressive control over enhanced dynamics and tone transitions based on picking style.
