How Do I SELECT AND PLAY BACK A FILE?

- 1 Press the **FINDER/MENU** button.
- 2 Cursor to the desired file's name.
- 3 Press the **REC** button.
- 4 Cursor to "Select."
- 5 Press **REC**.
- 6 Press the **PLAY** button to start playback.
- 7 Use the **VOLUME** buttons on the right side of the R-09 to adjust your listening level.
- 8 Press the **STOP** button to end playback.

R-09

How Do I SELECT THE RECORDING MODE?

The R-09 can record in nine different record modes. The R-09 offers a range of choices, from high-quality modes that use up your available memory more quickly to more efficient modes that allow for longer recordings. In the WAV-format 24-bit record mode, the R-09 creates the highest-quality audio files. The MP3 modes are best for longer recordings. Use the following steps to change record modes.

- 1 Press and hold down the FINDER/MENU button.
- 2 Use the ▲ button and ▼ button to cursor to “Recorder Setup.”
- 3 Press the REC button.
- 4 Use the ▲ button and ▼ button to cursor to “Sample Rate.”
- 5 Use the ▶ button and the ◀ button to select the desired Sample Rate: 44.1 kHz or 48 kHz. (The higher the Sample Rate value, the better the recording quality.)
- 6 Use the ▼ button to cursor down to “Rec Mode.”
- 7 Use the ◀ button and the ▶ button to change the record mode. The modes range from best quality to longest recording time. You can choose [WAV-24 bit](#), [WAV-16 bit](#), [MP3-320 kbps](#), [MP3-224 kbps](#), [MP3-192 kbps](#), [MP3-160 kbps](#), [MP3-128 kbps](#), [MP3-96 kbps](#), or [MP3-64 kbps](#).
- 8 Press FINDER/MENU twice to get back to the main screen.

How Do I Turn On The R-09's Phantom Power?

The R-09 can supply 5V of phantom power when you're using a condenser microphone that requires plug-in power.

Important! Only use phantom power with mics that require it. Turning on the R-09's phantom power with a mic that doesn't need it can cause damage to the mic.

Here's how to turn the R-09's phantom power on:

- 1 Press and hold down the FINDER/MENU button until "Menu" is displayed.
- 2 Cursor down to "Input Setup."
- 3 Press the REC button.
- 4 Cursor down to "Plug-in Power."
- 5 Press ▶ to turn plug-in power on if it's not already on.
- 6 Press the FINDER/MENU button twice to return to the main screen.

HOW DO I TRANSFER A FILE TO MY COMPUTER?

- 1 Turn on the R-09.
- 2 Connect one end of the provided USB cable to the USB jack on the R-09 and the other to an available USB jack on your computer.
- 3 On a
 - *Windows PC*—the R-09 appears as a removable storage device in the My Computer window.
 - *Mac*—the R-09 appears as a drive will on the desktop.
- 4 On the computer, double-click on the R-09's icon to see your R-09 recordings.
- 5 Drag the R-09 files you want to transfer from the removable drive to the desired location on your computer.

To disconnect the R-09 from a Windows PC:

- 1 Click the **Safely Remove Hardware** button in the system tray next to the clock.
- 2 Click **USB Mass Storage device**.
- 3 Click **Stop**.
- 4 Remove the USB cable from the computer and the R-09 once the USB Mass Storage Device disappears from the **Safely Remove Hardware Wizard**.

To disconnect the R-09 from a Mac:

- 1 Control-click the R-09 drive on the desktop and select **Eject**.
- 2 Remove the USB cable from the computer and R-09.
