ROLAND SHIPS SOUNDBLENDER VS

—Serious Pitch Shifting for the VS8F-3! —

Los Angeles, CA, April 1, 2006—Roland is pleased to announce they are now shipping Sound Toys SoundBlender VS. SoundBlender VS brings professional studio-quality pitch shifting to the Roland VS platform. SoundBlender VS has 2 channels of intelligent pitch-shifting, dual resonant filters, echo and reverse echo processors and arpeggiation.

Just like the original SoundBlender, SoundBlender VS features dozens of individual time, pitch, filter and modulation-based effects in a single plug-in. With a newly designed, easy-to-use interface, and a host of new presets, SoundBlender VS brings powerful and unique effects processing to Roland VS users, at an affordable price. With its Intelligent Harmonizing, Delays, Chorus, Stereo Widening, Flanging, Filtering and other effects, SoundBlender VS offers a unique set of tools that allows users to create impressive effects.
