ROLAND ANNOUNCES THE MT-90U MUSIC PLAYER Advanced Multi-format Player

Anaheim CA, January 17, 2008—Roland is proud to announce the new MT-90U Music Player. Simply feed it a file, and it will play. That is Roland's MT concept. From Standard MIDI files to MP3 and WAV files, the MT-90U provides instant playback of songs from its built-in speaker. The MT-90U also comes loaded with bonus features for karaoke sing-along sessions and music training.

Not only is the MT-90U compatible with the most common file formats, but it can also change the tempo and pitch of files (both audio and MIDI), making it the perfect recorder for sing-along sessions or for music students who wish to slow down fast or complicated pieces.

Equipped with a USB port, the MT-90U makes the file-import process quick and easy. Students or teachers simply load in favorite songs from a USB memory key such as Roland's new M-UF1G, or connect external devices such as a USB floppy-disk drive (FD-01A: sold separately) or a USB CD-ROM drive (commercially available, sold separately). CD-DA (music CD) playback through the USB CD-ROM is also possible.

A wireless remote allows users to control the MT-90U from across the room and a backlit LCD is easy to see from a distance. The LCD even displays song title, tempo and lyrics of compatible SMF disks during karaoke sessions. Roland has also included a foot pedal port which allows you to activate the Start/Stop function while holding an instrument.

Portable and fun to use, the MT-90U features icon-based buttons and backlit LCD making common operations such as playing songs, muting parts, or changing tempo and musical key easily. Its lightweight design and built-in grip handle make transport a breeze.

The onboard MIDI IN port can be used to connect a MIDI Controller Keyboard for performing with high quality GM2/GS/tones. USB MIDI is also available as a powerful desktop sound module.

Roland is a world leader in the design, manufacture, and distribution of electronic musical instruments, professional audio equipment, multimedia products, and music accessories. For more information, contact Roland Corporation U.S., 5100 S. Eastern Ave., P.O. Box 910921, Los Angeles, CA 90091-0921, (323) 890-3700 (x3718 - for media use only), www.RolandUS.com.
