ROLAND ANNOUNCES NEW RH HEADPHONE SERIES

The Perfect Solution for DJ Performance

Anaheim CA, January 17, 2008—Roland is proud to announce the new RH Headphone Series, the RH-iE3, RH-D30, and RH-D20. Created specifically for the DJ in mind, this new group of headphones offers outstanding Roland sound, at an affordable price.

Fine-tuned for Roland digital-musical instruments, the attractive RH-iE3 in-ear headphones feature aluminum housings, gold-plated plugs, and advanced drivers for balanced, full-range sound with deeper bass and extended frequency performance. Gone are the days of ill-fitting in-ear technology. The RH-iE3 features extended shaft arms to ensure a comfortable fit. The RH-iE3 comes equipped with a carrying case, extension cable, 1/8" to 1/4" phone conversion plug are also included.

Optimized for high-impact onstage performance, Roland's new RH-D30 headphones are lightweight and comfortable with superior isolation, powerful and clear sound, and a super-wide frequency range. Other features include high-capacity 45mm drivers, 180-degree rotating earpieces (90-degrees transverse), and curly cable. The carrying pouch and gold-plated 1/8" to 1/4" Phone Conversion Plug are included.

Similar in design to the RH-D30, the RH-D20 features 40mm drivers. Lightweight and comfortable for extended use, the RH-D20 provides superior sound isolation, balanced sound across the frequency spectrum due to 180-degree rotating earpieces for single-ear monitoring (90-degrees transverse), and curly cable. The carrying pouch and gold-plated 1/8" to 1/4" phone conversion plug are included.

Roland is a world leader in the design, manufacture, and distribution of electronic musical instruments, professional audio equipment, multimedia products, and music accessories.
