ROLAND ANNOUNCES NEW ALL-PURPOSE PORTABLE AMPLIFIER

Los Angeles, CA, March 12, 2008—Roland proudly announces a new addition to its popular CUBE® Series amplifiers that brings famous CUBE portability and tone to any instrument. The new MOBILE CUBE® features stereo instrument and stereo AUX inputs for microphones, keyboards, acoustic guitars, electric guitars, MP3 players and more — a first in compact amplifiers.

The MOBILE CUBE features 2.5-watt x 2.5-watt stereo power with two high-performance 4" speakers. It offers famous built-in Roland effects, including stereo reverb/chorus, distortion and more, plus a Center Cancel function for vocal practice or karaoke.

No larger than a briefcase and with a dedicated strap for easy transport, the MOBILE CUBE offers unmatched portable convenience. With true stereo sound that defies its small size, the MOBILE CUBE® provides instant audio entertainment anywhere, anytime.

Roland is a world leader in the design, manufacture, and distribution of electronic musical instruments, professional audio equipment, multimedia products, and music accessories. For more information, contact Roland Corporation U.S., 5100 S. Eastern Ave., P.O. Box 910921, Los Angeles, CA 90091-0921, (323) 890-3700 (x3718 - for media use only), www.RolandUS.com.
